GI KALEIDOSCOPE 2010

Presented by

October 9-10, 2010

**Willmar
Conference Center**

**Willmar Holiday Inn
2100 East Highway 12
Willmar, MN 56201**

**www.holidayinn.com
(320) 235-6060**

Our conference is designed
for Gastroenterology Nurses,
Associates and other health care
professionals who provide care for
patients with GI disorders.

www.mnsgna.com

Purpose/Goals

Diseases of the GI tract affect millions of Americans annually. The expertise of Gastroenterology Nurses and Associates is valued by patients. Patients requiring endoscopy and non-endo encounters for diagnostic and therapeutic interventions rely on that expertise and knowledge for information, care and support.

The goals of this conference are to increase participant's knowledge of GI topics related to: diseases, disorders, research in genetics, procedure care, surgical intervention, infection processes, and treatment options that improve the delivery of care to GI patients.

Target Audience

MNSGNA's annual educational course is sponsored by and intended for Gastroenterology Nurses and Associates and will provide clinically relevant information to all health care professionals about various disorders of the GI tract.

Credits

This seminar has been designed to meet the specifications of the Minnesota Nurse Practice Act of Continuing Education requirements for 11.5 contact hours (11.5 GI specific). This educational activity has been submitted to the Society of Gastroenterology Nurses and Associates, Inc. for approval. The Society of Gastroenterology Nurses and Associates, Inc. is accredited as an approver of continuing education in nursing by the American Nurses Credentialing Centers Commission of Accreditation. Participation and successful completion will be verified by self-reported attendance and return evaluation tool.

Course Objectives

Conference participants will be able to:

- Describe treatment modalities for GERD.
- Identify and discuss the management of endoscopic complications.
- Define celiac disease: Its symptoms & associated disorders.
- Review symptoms, diagnosis & treatment of gastroparesis.
- Discuss colon cancer research and newest treatment options.
- Describe methods of evaluation of pancreatic & biliary tumors using Spyglass.
- List and understand the causes & treatment of pancreatitis.
- Identify genetic risk factors of colon cancer.
- Name the risks of endoscopic ultrasound using fine needle aspiration.
- Name the risks of using fine needle aspiration during an endoscopic ultrasound.
- List recommended therapeutic agents to treat Crohn's disease.

MNSGNA Members

An open Board meeting will be held on Friday, October 8th at 8:00 p.m. at the Willmar Holiday Inn. All members are welcome.

Registration

Registration includes: tuition and syllabus in CD format (*you are welcome to bring your own laptop though no power source will be available*). Saturday registrations: continental breakfast and lunch, AM and PM breaks and two-day registrants also include: Sunday breakfast.
